VOL IV DAYTON O. WEDNESDAY, APRIL 17 1867. NO. 181.

THE BASIS OF REPUBLICAN
GOVERNMENT.

Resolved, That the several States composing the
United States, are not united on the principle of
unlimited submission to their General Govern-
ment, but that by compact, under the style and
title of a Constitution of the United States, and of
amendments thereto, they constituted a General
Government, for special purposes—delegated to
that Government certain definite powers, reser-
ving, each State to itself, the residuary mass of
right to their self-government; and that when-
ever the General Government assumes undelegated
power, its acts are unauthorized, void, and in-
valid; that to this compact each State accented
its ratification, as to itself, the other party, the
States forming, as to itself, the other party, that
the Government created by this compact was not
made the executive or final Judge of the extent of
the powers delegated to itself, since that would
have made its discretion, and not the Constitution,
the measure of its powers; but that as in all
other cases of compact among powers having
no common Judge, EACH PARTY HAS AN EQUAL
RIGHT TO JUDGE FOR ITSELF, AS WELL OF INFRAC-
TIONS AS OF THE MORE AND MEASURE OF REDRESS—
The First Kentucky Resolution of 1799.

William Neff, of Lexington Kentucky and

allowed them the choice of hanging or

The question of running Sunday cars in
Baltimore having been submitted to the

majority was not much greater.

THROWN DOWN A PRECIPICE—A TERRIFIC
INCIDENT.—The Zanesville Courier, of Mon-
day, relates the following: The dug road,
which winds around Putnam Hill, about
fifty or sixty feet above the river was, on
Saturday last, the scene of an accident
which, considering the circumstances, the
parties involved in it made a very lucky
escape. Mr. Lawson Wiles and daughter,
a young lady, were driving around the
road about four o'clock on last Saturday
afternoon. They stopped a moment at the
spring to water the horse, and for that pur-
pose Mr. Wiles got out of the buggy and
unreined the animal.

After drinking the water was reined up,
and they started on, the buggy crossed over
the little run, when suddenly the horse
stopped and commenced backing rapidly
toward the brink of the hill. Mr. Wiles
jumped out to take the horse by the rein,
but was too late. The buggy, with his
daughter seated in it, and the horse, went
over the bank and down the precipice about
twenty-five feet, turning over and over,
the buggy halting upside down. Miss Wiles
underneath it, and the horse lying on top
of it.

When rescued, Miss Wiles was found to
be but very slightly injured, a few sprains
and bruises were all; truly a wonderful es-
cape. Mr. Wiles' right arm was slightly
injured, and also his right hand. The bug-
gy was a most perfect wreck, all broken to
pieces. The horse was but slightly in-
jured.

Washington News and Gossip.
WASHINGTON, April 16.—Jack Hamilton
has gone to Texas as register of bankrupt-
cy, and but for the profit that there is in
the loyalty of such a strong stomach as
his, Jack Hamilton would have been the
first man in Texas he would have to register.

The President will to-morrow nominate
Thomas H. Yeatman, Esq., for Postmaster
at San Antonio, Texas, having again re-
jected Col. Taylor, who is the son-in-law of
the late President Harrison.

A prominent citizen has written from
New Orleans:
"The only turbulent spirits here are the
Northern men, whose aim is to produce
trouble and get up excitement which may
be damaging to the Government, and make
political capital for parties in the North to
the injury of the South."

The Senate last week reconsidered the
vote by which ex-Governor Bradford, of
Maryland, was confirmed as Surveyor of
the port of Baltimore, but to-day again
confirmed the nomination. That ends the
matter.

An effort has been made, recently, to in-
crease the President to make a large increas-
e in the army for service in the Southern
States and in certain Territories. Under
the law the army can be increased only by
doubling the present force. Mr. Johnson
refuses to increase the forces, believing them
sufficient now, if judiciously managed.

Brevet Major General Charles K. Woods
has been assigned to command of the general
service department at Newport Bar-
racks, opposite Cincinnati.

The Senate, to-day, rejected Marshal F.
Moore, of Ohio, as Secretary of Colorado
Territory.

Under an act of March 20, 1867, to reim-
burse the States of Ohio and Indiana for
moneys expended for enrolling, equipping,
and providing for militia to aid in suppress-
ing the rebellion, the President to-day ap-
pointed the following Commissioners: For
Ohio, Brevet Major General Silas C.
Casey, Lieutenant Colonel Lorenzo Sit-
greaves, and J. Johnston House, of New
York; for Indiana, John S. Phillips, of
Bloomington, and C. Reynolds, of Indian-
apolis; and for Illinois, John S. Wolford,
of Chicago, and Frank Wolford, of Kentucky.

In answer to daily applications to ad-
minister for letters of introduction to our
diplomatic agents in Europe, and
especially in answer to visitors to the Paris
Exposition, Secretary Seward publishes a
circular, in which he requests the confirma-
tion of the President, and long
established rules, the Government forbids
the Department to grant any such letters.

Major General Rawlins, Chief of General
Grant's staff, leaves here in a few days on
a tour of inspection over the plains.

The Senate discussed for two hours, to-
day, a motion to reconsider the confirma-
tion of General Sol. Meredith, of Indiana, as
Surveyor General of Montana, and finally
defeated it. This leaves him confirmed be-
yond any future doubt. The malignant
Julian has been effectually foiled.

The President has ordered that twenty-five
cents per day for rations of enlisted men who
have been prisoners of war, is now being
paid at the office of the Commissary Gen-
eral of Prisoners, in this city, and quite a
large number of cases have been disposed
of. Soldiers, sailors and marines alone are
entitled to it.

Rumors are prevailing that the Govern-
ment is negotiating for the purchase of
several other Mexican States, and the price
paid for the same was ten millions,
in gold.

The United States Marshal, for the Su-
preme Court, to-day served the subpoenas
issued by the Georgia case, against
General Grant and Secretary Stanton, and
informed them that he would be served in
a few days. There will be nothing done
till December.

Arkansas is not to be included in the in-
junction business; Governor Murphy having
protested, by resolution of the Senate,
against the same.

Horace Greeley, and a number of the
New York Radicals, have telegraphed to
have the Senate confirm the nomination of
Hon. Mr. Raymond, of the New York Times,
as Minister to Austria. They want him
banished from the country.

The adjournment of the Senate was up again,
to-day there was a personal debate in the
Senate between Chandler, Fessenden, Cam-
eron and others, as to the time of adjourn-
ment. Chandler was quite offensive—evi-
dently drunk—and had a good deal of
say to extend on Treators and Copperheads.

He charged that Mr. Fessenden had given
the President notice that he would vote to
confirm his Democratic nominees if he
found he could not get Republicans. Mr.
Fessenden denied the charge with indigna-
tion. Cameron charged the President with
nominating the worst men for office. The
session was extended to 4 P. M., at Tharal-
by; but it is questionable if the adjournment
will take place even then. They are mor-
bidly afraid of Andy.

The fifth anniversary of the emancipation
of slaves in the District of Columbia,
was celebrated to-day by the colored peo-
ple. Owing to the storm the original pro-
gramme was not carried out. The pro-
cession numbered about 1,500.

Matters at Columbus.
COLUMBUS, April 16.—The Legislature

bill was lacking eight votes.

The Senate bill requiring the assent of
property holders to the running of loco-
motives through streets, was read three
times and passed.

tural and Mechanical College was lost—
yeas 29, nays 37.

construction of sewers in second class cities,
having over 13,000 inhabitants at the last
Federal census.

Allowing Soldiers' Home inmates to vote
at elections.

To provide for the organization of Military
Institutes.

The bill to prevent the law partners of
prosecuting attorneys from defending
criminals, was indefinitely postponed.

To appoint Commissioners to examine
the State charitable and correctional insti-
tutions, without pay, was passed.

The Senate joint resolution relative to
refunding taxes on National Bank shares,
was passed.

Mr. Banning made, for about the twen-
tieth time, another unsuccessful effort to
get up his bill establishing eight hours as
a day's work, but was voted down from
the Republican side of the House.

The Railroad bill is dead in the Senate.

The House bill to prevent the posting or
marking of advertisements on houses or
fences was passed.

Votes of thanks were offered, in both
branches, to their respective presiding offi-
cers, clerks, &c., and pleasant responses
made.

Body Snatching.
CHICAGO, April 16.—Two negroes were
caught, at midnight last night, with five
sacks in an express wagon, in each of which
was a body, intending for the dissecting
rooms at Rush Medical College. Each
corpse was fresh from the grave. They
were all, apparently, of the better class,
and one of the young bride with five
orange wreaths still in her hair, and clothed
in bridal vestments. Three were males,
and two females. The negroes were arrested,
and confessed to have taken the bodies from
the Roman Catholic Cemetery.

from the British Columbia mining district
is encouraging. Claims are paying well.
A Portland (Oregon) telegram says the
lives of rich and extensive mines, at Forty-
nine creek, had caused excitement among
miners and business men. Arrivals all
agree that the gold is rich, and that a day
per man was being made. The mines are
easy of access.

AMERICAN
WALTHAM WATCHES.

We claim and are prepared to prove that the
American Watches manufactured at Waltham,
Massachusetts, are not only equal, but far super-
ior, to the watches of England, Switzerland and
France. We also, claim that they are CHEAPER,
MORE ACCURATE, MORE DURABLE, and
more easily kept in order and repaired than any
other watches in the market.

Because in each one of the very numerous parts
of which a watch is made up, we attain, by me-
chanical power, nearly absolute mathematical pre-
cision and uniformity, making every watch of any
one style a true copy of its model.

This similarity in structure reduces the cost of
production; it secures uniformity in results; it
perpetuates and infallibly diffuses an excellence
that may be once achieved, and makes it easy
to repair any injury sustained, or replace any part
that may be lost or destroyed.

In addition to these mechanical advantages, our
Watches are simpler in structure, and therefore
stronger, and less likely to be injured than foreign
watches.

How they run under the hardest trial watches
can have, is shown by the following letters:
PENNSYLVANIA RAILROAD COMPANY,
OFFICE OF THE GENERAL SUPERINTENDENT,
ALTOONA, PA. 15th December, 1866.

Gentlemen: The watches manufactured by you
have been in use on this railroad for several years
by our engineers, to whom we furnish watches
as part of our equipment. There are now some
three hundred of them carried on our line, and
I have great satisfaction in saying your
watches give me less trouble, and have worn
so much longer without repairs than any
watches we have ever had in use on this road. As
English manufacture, of acknowledged good
reputation, but as a class they never kept time as
correctly, nor have they done as good service, as
yours.

In these statements I am sustained by my peo-
ple, and I have no hesitation in saying that I
believe the great majority of Locomotive En-
gineers have found by experience that Waltham
Watches are the most satisfactory of any for their
uses. They run with the greatest accuracy and
steadfastness, notwithstanding the rough riding,
and constant vibration to which they are sub-
jected, and which I have never known any other
time piece to be so durable. I hope to see the
time when Railway Companies will generally adopt
your watches, and furnish them to all engineers
and conductors. In my opinion it would greatly
tend to promote regularity and safety.

Yours respectfully,
EDWARD H. WILLIAMS,
General Superintendent,
American Watch Co., Waltham.

CLOTHING!
New Goods, New Fashions, New Prices.

H. SCHWARZ,
WHOLESALE AND RETAIL DEALER IN
Custom Made Clothing,

And proprietor of the well-known
EAGLE CLOTHING STORE,
118

My experience since in the Clothing trade, has
taught me to pursue but one course, and that is to
deal with all men alike—give each and every one
a satisfaction—keep nothing but the best of goods,
well made, and what is more, sell them cheaper
than the rest of clothing, and with a living profit.

PRICES.
Having carefully watched the varying markets,
I took advantage when at its lowest, and secured
such bargains enabling me to sell at such prices
defying all competition, no matter what they may
pursue or offer. All I ask is a fair examination
and comparison of goods—there being a great deal
of imitation now—a-days in market.

Our line of Goods, Furnishing Goods is also com-
plete, including all styles of white, colored, and
ruffled shirts, beautiful ruffs, Neckties, Hand-
kerchiefs, Socks of all colors, and a large stock of
PAPER COLLARS.

I also purchased a entire new stock of Hats
and Caps which I have determined to sell at the
lowest price, and in the most approved styles,
and of material which I warrant will give all and
every one entire satisfaction.

MY EXPERIENCE.
I have been in the Clothing trade, for many
years, and have had the honor of supplying
the most distinguished customers, and the public
generally, with clothing of every description,
and of material which I warrant will give all and
every one entire satisfaction.

Again, thanking my kind patrons and friends
for their patronage, and assuring them that I
will extend me, and shall promise them and all those
desiring to patronize me that in future as in the
past, I will keep the interests of my customers
first, and my own as much as my own.
